

Sure Speed[®] 2.0 and 995 Electric Motor Vibrators

Wyco Square Head vibrators for faster concrete consolidation.

Sure Speed 2.0 advanced electric motor vibrator

The computer controlled Sure Speed 2.0 motor automatically maintains vibrator head speed in varying mix conditions. The Sure Speed 2.0 produces uniform and repeatable vibration-every time. Its lightweight, ergonomic design minimizes labor hours and fatigue and a soft-start brush design provides increased brush life.

- Adapts to slump automatically and controls motor output for great results
- Requires less power consumption – uses only the energy necessary for job completion

995 rugged electric motor vibrator

The 995 electric motor vibrator builds on the legacy of the rugged and reliable 994. The more durable 995 is designed to incorporate the latest features from our Sure Speed line, including a rugged molded motor enclosure, durable electric switch and easy-to-service motor brushes.

Sure Speed 2.0 and 995 electric motor vibrators

- Drive any head and shaft combination – one motor for all your consolidation needs
- Compatible with all prior heads and shafts
- Conform to current UL and OSHA regulations for safety

External Connectors – quick disconnect and threaded versions are field swappable.

Quick Disconnect Adapters – available for threaded shafts
